[Portfolio](#)

UI/UX Designer and Automation Developer with professional experience in digital product design, web development, backend automation, API integrations, CRM workflows, and deployment. Experienced in turning business requirements into polished interfaces and reliable automation systems using Figma, React, JavaScript, PHP/Laravel, MySQL, n8n, REST APIs, webhooks, Google Workspace, Instantly, and AI-assisted development.

Experience

UI/UX Designer & Automation Developer — Pixoda

- Design responsive web/mobile interfaces, user flows, wireframes, high-fidelity UI, and reusable design systems.
- Contribute to Creamstack product development with focus on backend automation, workflow integration, data processing, and automation infrastructure.
- Build n8n workflows for lead generation, CRM operations, data processing, notifications, APIs, and webhooks.
- Work with Google Workspace, Instantly, CRM platforms, WhatsApp integrations, authentication, validation, and workflow troubleshooting.
- Design the Mayon Auto website experience and product creatives for automotive care products; support web development and deployment.

Web Application Developer — Raibs Technologies

- Developed end-to-end web applications using HTML, CSS, JavaScript, PHP, Laravel, and MySQL.
- Built Laravel MVC, CRUD, authentication, validation, database integrations, and business applications including ERP, e-commerce, school, and complaint systems

UI/UX Design Intern — VDart

- Created wireframes, mockups, and interactive Figma prototypes and applied UX principles to improve usability and user flows.

Key Project

- **Manima Mayapur** — Website & booking system; designed and developed the customer experience and booking workflow.
- **Creamstack** — Product development at Pixoda; backend automation, workflow integration, and data processing.
- **Mayon Auto** — E-commerce website design plus product/visual design for automotive care products. CRM & Lead
- **Automation** — n8n, Google Workspace/Sheets, CRM, APIs, webhooks, and outreach workflows.
